APPROVED JURISDICTIONAL DETERMINATION FORM **U.S. Army Corps of Engineers**

This form should be completed by following the instructions provided in Section IV of the JD Form Instructional Guidebook.

SECTION I: BACKGROUND INFORMATION

- REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD): February 24, 2023
- B. ST PAUL, MN DISTRICT OFFICE, FILE NAME, AND NUMBER: Orlando Drive Property, Village of Hobart (Wetlands 1 and 3) / 2022-00962-JLK

		~ ~ ~		
ľ	PROTECTI	OCATION	AND RACKCROUP	JD INFORMATION:

State: Wisconsin County/parish/borough: BrownCity: Hobart Center coordinates of site (lat/long in degree decimal format): Lat. 44.14591° N, Long. -88.14591° E. Universal Transverse Mercator: Zone 16 Name of nearest waterbody: Unnamed tributary of Ashwaubenon Creek Name of watershed or Hydrologic Unit Code (HUC): Northwestern Lake Michigan (04030204) Check if map/diagram of review area and/or potential jurisdictional areas is/are available upon request. Check if other sites (e.g., offsite mitigation sites, disposal sites, etc...) are associated with this action and are recorded on a different JD form. D. REVIEW PERFORMED FOR SITE EVALUATION (CHECK ALL THAT APPLY):

Office (Desk) Determination. Date: February 16, 2023

Field Determination. Date(s):

SECTION II: SUMMARY OF FINDINGS

A. RHA SECTION 10 DETERMINATION OF JURISDICTION.

There are no "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.

There are no"waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

1. Waters of the U.S.: N/A

Non-regulated waters/wetlands (check if applicable):¹

Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional.

The review area includes two aquatic resources (labeled as Wetlands 1 and 3 on 2022-00962-JLK Figure 2 of 2) which are described as ditches constructed in uplands sometime before 1981. A review of historical aerial photos show no wet signatures were present within the footprint of Wetland 3 which appears to be constructed as a drainage ditch along an old farm road that was no longer in existence soon after 2002. Wetland 1 traverses east to west along the south side of County Road EE which was constructed sometime before 1938. No historical aerial photos are available before this roadway was constructed, however based on the lack of wet signatures in the immediately adjacent surrounding areas in the 1938 aerial photo, it appears Wetland 1 was constructed as a drainage ditch along County Road EE. The Wisconsin Surface Water Data Viewer shows there are no mapped wetlands within the boundaries of Wetlands 1 and 3 and lidar data provided by the National Regulatory Viewer shows an increase in elevation on both sides of the features. A review of site photos illustrate a clear topographic increase just outside of the features, indicating the ditches drain only uplands. In accordance with the preamble to the 1986 Corps Regulations (33 CFR Parts 320-330), the Corps does not generally consider the following waters to be waters of the United States; non-tidal drainage ditches excavated on dry land. Further clarification is provided in the December 2, 2008 Revised Guidance on Clean Water Act Jurisdiction following the Supreme Court Decision in Rapanos v. U.S. and Carabell v. U.S. issued jointly by the Corps and EPA which indicates that ditches excavated wholly in and draining only uplands and do not carry a relatively permanent flow are not waters of the United States. Based on this information, Wetlands 1 and 3 are non-WOUS which are not subject to Corps jurisdiction under Section 404 of the Clean Water Act, or Section 10 of the Rivers and Harbors Act.

¹ Supporting documentation is presented in Section III.F.

SE.	CTI	ON	III •	CWA	ANAI	VSIS

- A. TNWs AND WETLANDS ADJACENT TO TNWs: N/A
- B. CHARACTERISTICS OF TRIBUTARY (THAT IS NOT A TNW) AND ITS ADJACENT WETLANDS (IF ANY): N/A
- C. SIGNIFICANT NEXUS DETERMINATION: N/A

Applicable/supporting case law:

- D. DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE (CHECK ALL THAT APPLY): $\ensuremath{\mathrm{N/A}}$
- E. ISOLATED [INTERSTATE OR INTRA-STATE] WATERS, INCLUDING ISOLATED WETLANDS, THE USE, DEGRADATION OR DESTRUCTION OF WHICH COULD AFFECT INTERSTATE COMMERCE, INCLUDING ANY SUCH WATERS (CHECK ALL THAT APPLY): N/A

SUCH WATERS (CHECK ALL THAT AFFLT): 19/A
NON-JURISDICTIONAL WATERS, INCLUDING WETLANDS (CHECK ALL THAT APPLY): If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements. Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce. Prior to the Jan 2001 Supreme Court decision in "SWANCC," the review area would have been regulated based solely on the "Migratory Bird Rule" (MBR). Waters do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction. Explain: Other (explain, if not covered above): The review area includes two ditches (totaling approximately 0.09 acre) structed in uplands that drain only uplands and does not convey a relatively permanent flow. These features are cribed in Section II.B.2 above.
Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply): Non-wetland waters (i.e., rivers, streams): linear feet width (ft). Lakes/ponds: acres. Other non-wetland waters: acres. List type of aquatic resource: Wetlands: acres.
Provide acreage estimates for non-jurisdictional waters in the review area that do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction (check all that apply): Non-wetland waters (i.e., rivers, streams): linear feet, width (ft). Lakes/ponds: acres. Other non-wetland waters: acres. List type of aquatic resource: . Wetlands: acres.
SUPPORTING DATA. Data reviewed for JD (check all that apply - checked items shall be included in case file and, where checked and requested, appropriately reference sources below): Maps, plans, plots or plat submitted by or on behalf of the applicant/consultant: Robert E. Lee & Associates, 2022 Wetland Delineation Data sheets prepared/submitted by or on behalf of the applicant/consultant. Office concurs with data sheets/delineation report. Office does not concur with data sheets/delineation report. Data sheets prepared by the Corps: Corps navigable waters' study: U.S. Geological Survey Hydrologic Atlas: USGS NHD data. USGS 8 and 12 digit HUC maps. U.S. Geological Survey map(s). Cite scale & quad name: USDA Natural Resources Conservation Service Soil Survey. Citation: Brown County National wetlands inventory map(s). Cite name: State/Local wetland inventory map(s): Wisconsin Wetland Inventory FEMA/FIRM maps: 100-year Floodplain Elevation is: (National Geodectic Vertical Datum of 1929) Photographs: Aerial (Name & Date): 2022 Wetland Delineaton Report or Other (Name & Date): Ground level photos
