

# U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

### I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 9/17/2020

ORM Number: MVP-2018-03099-MAD

Associated JDs: N/A

Review Area Location<sup>1</sup>: State/Territory: Minnesota City: Mounds View County/Parish/Borough: Ramsey

Center Coordinates of Review Area: Latitude 45.116718 Longitude -93.211062

## **II. FINDINGS**

A. Summary: Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.
The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
There are "waters of the United States" within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

<sup>&</sup>lt;sup>1</sup> Map(s)/figure(s) are attached to the AJD provided to the requestor.

<sup>&</sup>lt;sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>&</sup>lt;sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

### D. Excluded Waters or Features

| Excluded waters ( | Excluded waters $((b)(1) - (b)(12))$ : <sup>4</sup> |                |  |  |  |  |
|-------------------|---|----------------|--|--|--|--|
| Exclusion Name    | Exclusion   | n Size         | Exclusion <sup>5</sup>   | Rationale for Exclusion Determination  |  |  |
| Wetland 1         | 0.02  | acre(s)        | (b)(1) Non-adjacent wetland.   | This wetland does not meet the definition of adjacent wetlands. It does not abut a traditional navigable water, tributary, or a lake, pond, or impoundment of a jurisdictional water in a typical year. It is not flooded by an (a)(1)-(3) water in a typical year. Wetlands 1 is not separated from other wetlands by natural or manmade berm, bank, dune or similar features, that are (a)(1)-(3) waters. The NWI shows Wetland 1 but not any feature connecting it to a jurisdictional water. The drainageway passes through Wetland 1, but as the drainageway is an excluded artificially constructed ditch, Wetland 1 remains non-adjacent. The nearest (a)(3) water is an unnamed tributary of Rice Creek that is located approximately 500 feet east of the project site. |  |  |
| Ditch 1           | 362   | linear<br>feet | (b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1). | The drainageway is an artificially constructed ditch that did not relocate a tributary, was not constructed in a tributary, and was not constructed in an adjacent wetland. An aerial map from 1960 shows the project area and there is no stream or water feature in the area where the ditch was constructed. The nearest (a)(3) water is an unnamed tributary of Rice Creek that is located approximately 500 feet east of the project site.  |  |  |

## **III. SUPPORTING INFORMATION**

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

☐ Information submitted by, or on behalf of, the applicant/consultant: Long Lake Woods 2nd Addition Wetland Permit Application by Kjolhaug Environmental Services

This information is not sufficient for purposes of this AJD.

Rationale: N/A or describe rationale for insufficiency (including partial insufficiency).

- □ Data sheets prepared by the Corps: Title(s) and/or date(s).
- Photographs: Aerial: Minnesota Historical Aerial Photographs Online MDN-1-116 Year 1960
- ☐ Corps site visit(s) conducted on: Date(s).
- ☐ Previous Jurisdictional Determinations (AJDs or PJDs): ORM Number(s) and date(s).
- ☐ Antecedent Precipitation Tool: *provide detailed discussion in Section III.B.*
- ☐ USDA NRCS Soil Survey: Title(s) and/or date(s).

<sup>&</sup>lt;sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>&</sup>lt;sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
