- ☐ The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- ☐ There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- ☐ There are "waters of the United States" within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).

¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)). ⁴				
Exclusion Name	Exclusion Size		Exclusion ⁵	Rationale for Exclusion Determination
Wetland 1	0.7	acre(s)	(b)(1) Non-adjacent wetland.	Wetland 1 is contained entirely within the review area, surrounded by uplands and does not have any notable surface drainage offsite. This wetland was previously determined to be isolated and not under Corps jurisdiction (2015). The wetland is bordered by residential development, a residential road and active farmland. The nearest tributary is approximately 2,400 linear feet North of the site. A tributary is mapped south of the site but was not identified on aerial imagery. There is no single natural feature separating this site from the northern tributary as there is a long distance and no prominent natural features shown on topo maps between the resources. The wetland is not abutting this tributary as the delineation shows the wetland boundary ending onsite. The wetland does not extend to a man made feature between the wetland and nearest identified tributary. The nearest tributary has a mapped 100 year FEMA floodplain which well north of the site. Wetland 1 does not abut an a(1)-a(3) water, is not separated from one by a natural or man-made feature and are not flooded in a typical year by an a(1)-a(3) water.
N/A.	N/A.	acre(s)	N/A.	N/A.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

☒ Information submitted by, or on behalf of, the applicant/consultant: [Davel AJD request dated 9/11/2020 \(Includes delineation report\)](#), [Updated map provided by Davel on 11/30/2020](#)

This information is sufficient for purposes of this AJD.

Rationale: [N/A](#)

☐ Data sheets prepared by the Corps: [Title\(s\) and/or date\(s\)](#).

☐ Photographs: [Aerial: Title\(s\) and/or date\(s\)](#).

☐ Corps site visit(s) conducted on: [Date\(s\)](#).

☒ Previous Jurisdictional Determinations (AJDs or PJDs): [2014-04062, February 12, 2015](#)

☐ Antecedent Precipitation Tool: [provide detailed discussion in Section III.B.](#)

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
