Section 31, Township 32N Range 23W

Information Complete On February 18, 2015

Posting Expires On March 9, 2015

Authorization Type MN-LOP-05

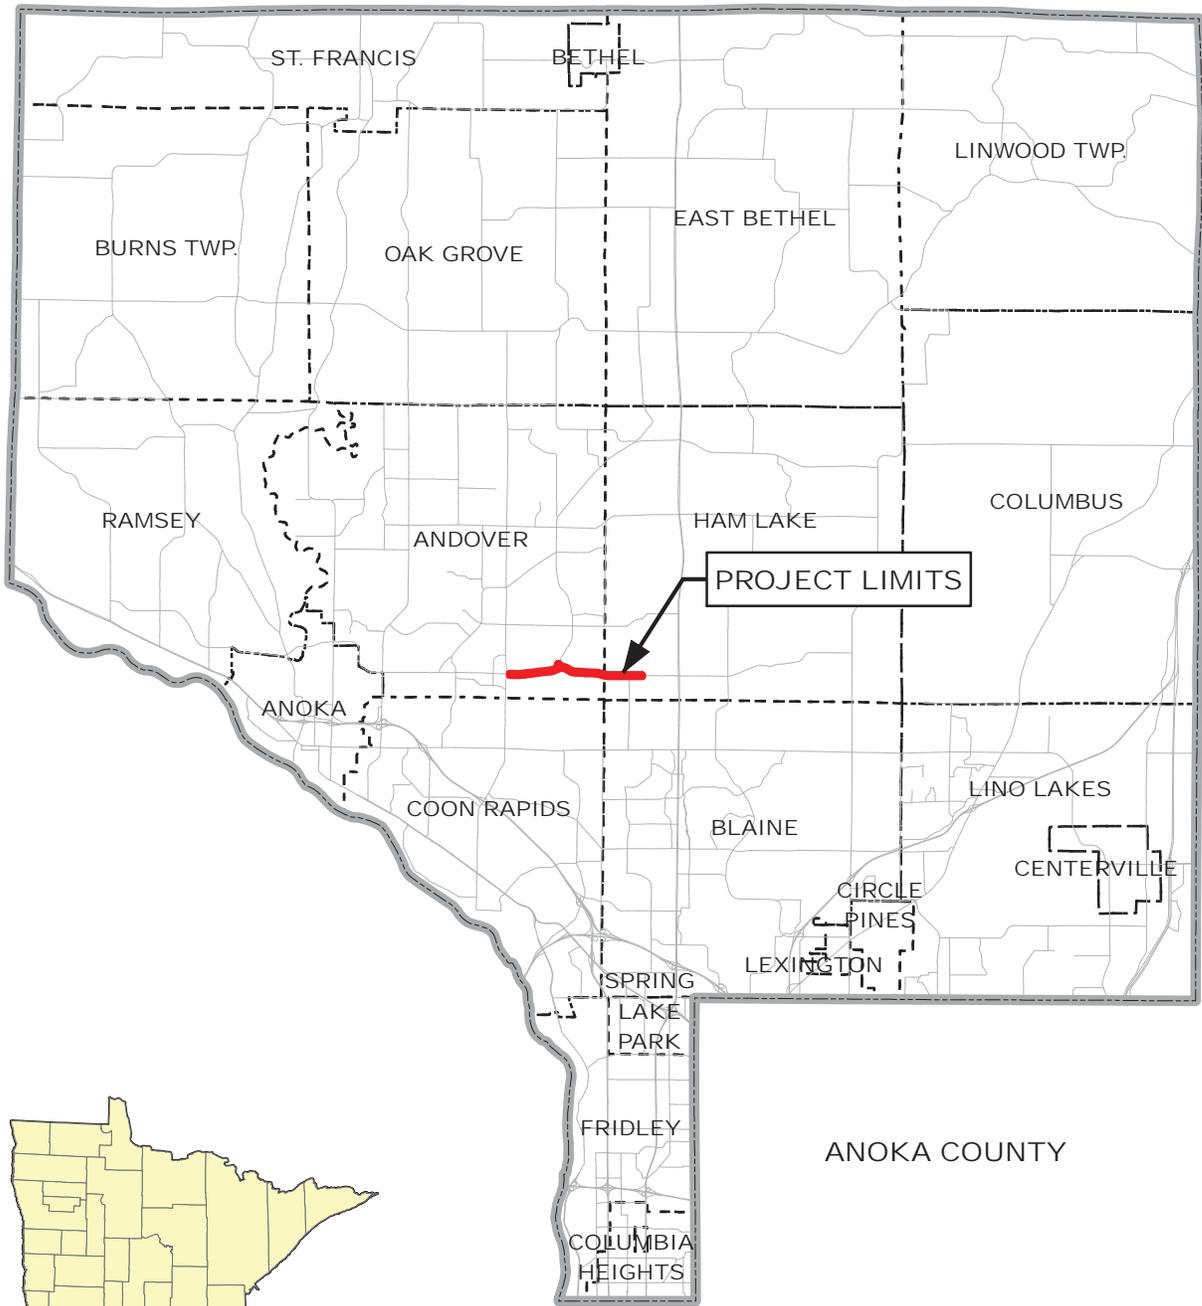

This application is being reviewed in accordance with the practices for documenting Corps jurisdiction under Sections 9 & 10 of the Rivers and Harbor Act of 1899 and Section 404 of the Clean Water Act identified in Regulatory Guidance Letter 07-01. We have made a preliminary determination that the aquatic resources that would be impacted by the proposed project are regulated by the Corps of Engineers under Section 404 of the Clean Water Act. Our jurisdictional review and final jurisdictional determination could result in modifications to the scope of the project's regulated waterbody/wetland impacts and compensatory mitigation requirements identified above. Any approved jurisdictional determination made prior to reaching a permit decision will be posted on the St. Paul District web page at <http://www.mvp.usace.army.mil/>.

Project Description and Purpose (As stated by the applicant): Anoka County Highway Department is proposing to impact 2.60 acres of wetland for the purpose of reconstruction of 2.5 miles of Anoka County State Aid Highway (CSAH) 116 (Bunker Lake Boulevard). The impacts consist of grading and excavating to accommodate widening of the road from the existing two-lane roadway to a four-lane divided highway with medians. Dedicated turn lanes will be constructed at public intersections and shoulders will be widened and paved. The project also includes construction of a pedestrian trail. Of the proposed impacts, there will be 2.28 acres of permanent impacts and 0.32 acre of temporary impacts.

NAME, AREA AND TYPES OF WATERS (INCLUDING WETLANDS) SUBJECT TO LOSS: As stated by the applicant, the proposed wetland communities to be impacted consist of 1.16 acres of Shallow Marsh (Type 3) and 1.42 acres of Shrub-Carr/Shallow Marsh (Type 3/6) wetland communities.

COMPENSATORY MITIGATION: The applicant would provide compensatory mitigation by purchasing credits from a combination of the BWSR Local Government Road Wetland Replacement Program and private mitigation banks.
