

# Information for File # 2015-00467-EJI

**Applicant: Mark Kleindl**

**Corps Contact: Evan Ingebrigtsen**

**Address: 10867 East Gull Lake Drive, Brainerd, Minnesota 56401**

**E-Mail: [evan.j.ingebrigtsen@usace.army.mil](mailto:evan.j.ingebrigtsen@usace.army.mil)**

**Phone: (651) 290-5765**

**Primary County: Big Stone, Minnesota**

**Section: 8**

**Township: 124 N**

**Range: 46 W**

**Information Complete On: 12 February 2015**

**Posting Expires On: 12 March 2015**

**Authorization Type: LOP-05-MN**

This application is being reviewed in accordance with the practices for documenting Corps jurisdiction under Sections 9 & 10 of the Rivers and Harbor Act of 1899 and Section 404 of the Clean Water Act identified in Regulatory Guidance Letter 07-01. We have made a preliminary determination that the aquatic resources that would be impacted by the proposed project are regulated by the Corps of Engineers under Section 404 of the Clean Water Act. Our jurisdictional review and final jurisdictional determination could result in modifications to the scope of the project's regulated waterbody/wetland impacts and compensatory mitigation requirements identified above. An approved jurisdictional determination will be made prior to reaching a permit decision, and will be posted on the St. Paul District web page at <http://www.mvp.usace.army.mil/>.

**PROJECT DESCRIPTION AND PURPOSE:** The project involves the installation of drainage tile in wetlands. The purpose of the project, as described by the applicant, is for farming.

**NAME, AREA AND TYPES OF WATERS SUBJECT TO LOSS:** A 1.2 acre freshwater emergent wetland (PEMAd) and a 0.5 acre freshwater emergent wetland (PEMA) would be drained as a result of this project. Both basins have been partially drained in the past through ditching and are farmed when conditions allow.

**ALTERNATIVES CONSIDERED:** The applicant did not provide any information on alternatives considered. Under the no action alternative, wetlands would continue to be farmed when conditions allow.

COMPENSATORY MITIGATION: The applicant proposes to purchase 1.7 credits from a Corps approved wetland bank to offset the permanent loss of wetlands associated with the project.

**Drawings** See attached.
