Township 51N

Range 4W

Information Complete On 2/28/2013

Posting Expires On 3/15/2013

Authorization Type Section 404 Letter of Permission (LOP-10-R)

This application is being reviewed in accordance with the practices for documenting Corps jurisdiction under Sections 9 & 10 of the Rivers and Harbor Act of 1899 and Section 404 of the Clean Water Act identified in Regulatory Guidance Letter 07-01. We have made a preliminary determination that the aquatic resources that would be impacted by the proposed project are regulated by the Corps of Engineers under Section 404 of the Clean Water Act. Our jurisdictional review and final jurisdictional determination could result in modifications to the scope of the project's regulated waterbody/wetland impacts and compensatory mitigation requirements identified above. An approved jurisdictional determination will be made prior to reaching a permit decision, and will be posted on the St. Paul District web page at <http://www.mvp.usace.army.mil/>.

Project AFTER-THE-FACT APPLICATION? No

PROJECT INVOLVES:

THREATENED OF ENDANGERED SPECIES? No
TRIBAL TRUST OR OTHER RESOURCES? No
A LISTED STATE-IMPAIRED WATER? No
FEMA 100-YEAR FLOODPLAIN? No
COASTAL RIDGE&SWALE CMPLX? No
MINK, KAKAGON OR BAD RIVER? No
PLEASANT PRAIRIE ADID? No

PROJECT DESCRIPTION AND PURPOSE: The Red Cliff Band of Lake Superior Chippewa proposes to construct a new community health care center and associated parking areas within the Red Cliff Indian Reservation.

ALTERNATIVES CONSIDERED: Seven off-site alternatives were evaluated for the construction of a new health care center. The proposed site was selected as the preferred alternative based on site selection criteria evaluated as part of a feasibility study conducted by the Indian Health Service. Three alternative

on-site configurations we evaluated. Alternative 1 was selected as the preferred alternative configuration as it results in the lesser amount of wetland impact.

NAME, AREA AND TYPES OF WATERS (INCLUDING WETLANDS) SUBJECT TO LOSS: The project would result discharges of fill material into approximately 0.52 acres of forested wetlands adjacent to Chicago Creek. The forested wetlands are dominated by black ash, trembling aspen and balsam fir.

COMPENSATORY MITIGATION: The applicant proposes to compensate for the loss of 0.52-acre of wetland by debiting 0.52 acre of wetland credit from the Lake Superior Wetland Mitigation Bank Site #1 located in Douglas County, Wisconsin.
