

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 6/22/2020

ORM Number: MVP-2019-01622-SLV

Associated JDs: NA

Review Area Location¹: State/Territory: Minnesota City: Delano County/Parish/Borough: Wright

Center Coordinates of Review Area: Latitude 45.035696 Longitude -93.817689

II. FINDINGS

١.		mmary: Check all that apply. At least one box from the following list MUST be selected. Complete the
	cor	responding sections/tables and summarize data sources.
		The review area is comprised entirely of dry land (i.e., there are no waters or water features, including
		wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
		There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the
		review area (complete table in Section II.B).
		There are "waters of the United States" within Clean Water Act jurisdiction within the review area
		(complete appropriate tables in Section II.C).
	\boxtimes	There are waters or water features excluded from Clean Water Act jurisdiction within the review area
		(complete table in Section II.D).

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)): ⁴ The review area includes the wetlands identified in the red project area on Figure 2 of the attached Project Drawings and described below.					
Exclusion Name Exclusion Size			Exclusion ⁵	Rationale for Exclusion Determination	
Wetland 1a	0.481	acre	(b)(1) Non-adjacent wetland.	Wetland 1a is a part of a large wetland complex north of the proposed project area. Wetland 1a is connected to the larger wetland through a culvert under the road. The overall wetland complex is a depressional feature surrounded by uplands and cropland. Therefore, Wetland 1a was determined to be a non-adjacent wetland because there is no hydraulic connection and no natural barriers to any (a)(1) – (a)(3) jurisdictional waters present.	
Wetland 1b	0.356	acre	(b)(1) Non-adjacent wetland.	Wetland 1b is part of a large wetland north of the proposed project area. The overall wetland complex is a depressional feature surrounded by uplands and cropland. Therefore, Wetland 1b was determined to be a non-adjacent wetland because there is no hydraulic connection and no natural barriers to any (a)(1) – (a)(3) jurisdictional waters present.	
Wetland 2	0.105	acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	Wetlands 2, 3, and 4 are linear wet features and were determined to be roadside ditches for drainage and runoff with no culverts providing hydraulic connection and no natural	
Wetland 3	0.029	acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	paths or barriers to any (a)(1) – (a)(3) jurisdictional waters present.	
Wetland 4	0.178	acre	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).		

III. SUPPORTING INFORMATION

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.
