**SECTION II: SUMMARY OF FINDINGS**

**A. RHA SECTION 10 DETERMINATION OF JURISDICTION.**

There are no “*navigable waters of the U.S.*” within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

**B. CWA SECTION 404 DETERMINATION OF JURISDICTION.**

There are no “*waters of the U.S.*” within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

**1. Waters of the U.S.: N/A**

**2. Non-regulated waters/wetlands (check if applicable):<sup>1</sup>**

- ☒ Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional.  
Explain: **The review area contains a roadside ditch system (Wetland 5a and Wetland 4) and two stormwater basins (Wetland 5b and 5c). The roadside ditches associated with Wetland 5a are located on the south side of Prairie View Drive and on both sides of East Prairie View Drive totaling 0.22 acre in size. This ditch system is a continuation of a right-of-way ditch (Ditch 8/ROW-W-23) which was determined to be non-jurisdictional (MVP-2017-04050-MHK, July 30, 2018). The roadside ditch associated with Wetland 4 is located on the west side of W. Prairie View Drive and is 0.04 acre in size. This ditch is a continuation of W-1 ditch which was determined to be non-jurisdictional on October 5, 2018 (MVP-2017-03856-MHK). Both ditch systems were constructed wholly in uplands and drain only uplands. These ditches do not have a relatively permanent flow of water and are not a water of the U.S. The determination of no jurisdiction for the ditches is in accordance with the preamble to the 1986 Corps Regulations (33 CFR Parts 320-330) and the 2008 Rapanos Guidance.**

**The two stormwater basins were constructed in uplands between 2008 and 2010 and are both 0.02 acre in size. This was confirmed by reviewing aerial photos, 2018 TRC Environmental Corporation wetland delineation report, NRCS soil map, and Wisconsin Wetland Inventory. The jurisdictional determination for these stormwater basins is in accordance with the preamble to the 1986 Corps Regulations (33 CFR Parts 320-330), which states that the Corps does not generally consider the following to be waters of the U.S.; artificial lakes or ponds created by excavating and/or diking dry land to collect and retain water and which are used exclusively for such purposes as stock watering, irrigation, settling basins or rice growing.**

  - ☒ Other (explain, if not covered above): **See Section II B(2).**

Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply):
