	TE: If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Section
	navigable waters list, DO NOT USE THIS FORM TO MAKE THE DETERMINATION. The District must continue to
follo	ow the procedure outlined in 33 CFR part 329.14 to make a Section 10 RHA navigability determination.
В.	CLEAN WATER ACT (CWA) SECTION 404 DETERMINATION OF JURISDICTION: "waters of the U.S." within

	(a)(1): All waters which are currently used, were used in the past, or may be susceptible to use in interstate or
	foreign commerce, including all waters which are subject to the ebb and flow of the tide. (Traditional Navigable
	Waters or TNW).
	• Complete Spreadsheet Tab "(a)(1)" - Required This JD includes a case-specific (a)(1) TNW (Section 404 navigable-in-fact) determination on a water that has

	(c)(2)(ii): All waters located within the 100-year floodplain of a water identified in paragraphs (a)(1)-(a)(5) of
	33 CFR part 328.3 and not more than 1,500 feet of the OHWM of such water.
	(c)(2)(iii): All waters located within 1,500 feet of the high tide line of a water identified in paragraphs (a)(1) or

	(a)(7): All waters identified in 33 CFR 328.3(a)(7)(i)-(v) where they are determined, on a case-specific basis, to
	have a significant nexus to a water identified in paragraphs (a)(1)-(a)(3) of 33 CFR part 328.3.
	 Complete Spreadsheet Tab "(a)(7)" for the significant nexus determination. Attach a map delineating the SPOE watershed boundary with (a)(7) waters identified in the similarly situated
	analysis. – Required
	Includes water(s) that are geographically and physically adjacent per (a)(6), but are being used for established
	normal farming, silviculture, and ranching activities (33 USC Section 1344(f)(1)) and therefore are not adjacent

D. ADDITIONAL COMMENTS TO SUPPORT JD:

The review area for this determination is comprised of Wetland B as shown on the enclosed figures labeled MVP-2018-03108-MVM Page 1 of 3 through Page 3 of 3.

The aquatic resource in question is a stormwater pond that was constructed in uplands. This was confirmed by reviewing aerial photography, elevation data, and waterbody mapping tools including the USGS National Hydrography Dataset (NHD). Therefore, Wetland B is not a water of the U.S. and is not jurisdictional under the CWA.

¹ In many cases these excluded features will not be specifically identified on the approved JD form, unless specifically requested. Corps Districts may, in case-by-case instances, choose to identify some or all of these features within the review area.
