

**U.S. ARMY CORPS OF ENGINEERS
REGULATORY PROGRAM
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE**

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 5/18/2021

ORM Number: MVP-2021-00718-MWM

Associated JDs: N/A

Review Area Location¹: State/Territory: WI City: Village of Harrison County/Parish/Borough: Calumet

Center Coordinates of Review Area: Latitude 44.189573 Longitude -88.297063

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- ☐ The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A
- ☐ There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- ☐ There are "waters of the United States" within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- ☒ There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

B. Rivers and Harbors Act of 1899 Section 10 (§ 10)²

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination
N/A.	N/A.	N/A.	N/A.

C. Clean Water Act Section 404

Territorial Seas and Traditional Navigable Waters ((a)(1) waters): ³				
(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination	
N/A.	N/A.	N/A.	N/A.	N/A.

Tributaries ((a)(2) waters):				
(a)(2) Name	(a)(2) Size	(a)(2) Criteria	Rationale for (a)(2) Determination	
N/A.	N/A.	N/A.	N/A.	N/A.

Lakes and ponds, and impoundments of jurisdictional waters ((a)(3) waters):				
(a)(3) Name	(a)(3) Size	(a)(3) Criteria	Rationale for (a)(3) Determination	
N/A.	N/A.	N/A.	N/A.	N/A.

Adjacent wetlands ((a)(4) waters):				
(a)(4) Name	(a)(4) Size	(a)(4) Criteria	Rationale for (a)(4) Determination	
N/A.	N/A.	N/A.	N/A.	N/A.

¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

NAVIGABLE WATERS PROTECTION RULE**

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)): ⁴				
Exclusion Name	Exclusion Size		Exclusion ⁵	Rationale for Exclusion Determination
Wetland A1 Wetland B Wetland C	.4 .09 .61	acre(s)	(b)(1) Non-adjacent wetland.	Wetlands do not abut an a(1)-(3) water and aren't inundated by flooding from an a(1)-(3) water in a typical year. Wetlands are not separated from an a(1)-(3) water by a natural or artificial feature nor do they have direct surface connection in a typical year. Wetland A1 abuts Wetland A2, a ditch, this does not alter jurisdiction, see below. Wetland A1 and C continue south offsite. A review of aerial photos and the National Wetland Inventory do not show the wetlands continuing to an a(1)-(3) water. The wetland delineation extended into the tree line on the south side of the property, no wetlands were identified to connect the wetlands east to the tributary. Right outside of the delineation and review boundary on the SE side is a barn or garage structure with an associated parking lot and driveway approximately 15 feet from the tree line. Aerial photos show a transition to upland from a difference in soil and vegetation between the wetland and nearest a(1)-(3) water. The nearest a (1)-(3) water is over 250 feet east of the wetland boundary and is almost 3 feet lower in elevation than the wetlands. Wetland B is completely surrounded by upland, the nearest a(1)-(3) feature is over 400 feet NE and across an elevation change of 4 feet.
Wetland A2	.048	acre(s)	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	Ditch constructed in uplands. The ditch was constructed between 1938 and 1981. Aerial photo from 1938 does not show a wetness signature or other wetland indicators in the area before construction.

III. SUPPORTING INFORMATION

A. Select/enter all resources that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

- ☒ Information submitted by, or on behalf of, the applicant/consultant: [Mariana L. Dallapiazza Olson, Davel Engineering & Environmental, Inc., 4/15/2021](#)

This information is sufficient for purposes of this AJD.

Rationale: [N/A](#)

- ☐ Data sheets prepared by the Corps: [N/A](#)
- ☐ Photographs: [Select. N/A](#)
- ☐ Corps site visit(s) conducted on: [N/A](#)
- ☐ Previous Jurisdictional Determinations (AJDs or PJDs): [N/A](#)
- ☐ Antecedent Precipitation Tool: [provide detailed discussion in Section III.B.](#)
- ☐ USDA NRCS Soil Survey: [N/A](#)
- ☐ USFWS NWI maps: [N/A](#)
- ☐ USGS topographic maps: [N/A](#)

Other data sources used to aid in this determination:

Data Source (select)	Name and/or date and other relevant information
USGS Sources	N/A.
USDA Sources	N/A.
NOAA Sources	N/A.
USACE Sources	N/A.
State/Local/Tribal Sources	N/A.
Other Sources	N/A.

B. Typical year assessment(s): [N/A](#)

C. Additional comments to support AJD: [The boundary and area of Wetlands A2 and A1 are estimated only for the purpose of this AJD.](#)
