**SECTION II: SUMMARY OF FINDINGS**

**A. RHA SECTION 10 DETERMINATION OF JURISDICTION.**

There are no “*navigable waters of the U.S.*” within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

**B. CWA SECTION 404 DETERMINATION OF JURISDICTION.**

There are no “*waters of the U.S.*” within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

**1. Waters of the U.S.: N/A**

**2. Non-regulated waters/wetlands (check if applicable):<sup>1</sup>**

- ☒ Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional. Explain: **The review area includes one wetland, labeled Wetland 1 (0.24 acre). Wetland 1 is an isolated wetland depression surrounded by upland based on review of the May 2022 wetland delineation report provided by Wetland & Waterway Consulting, LLC, Wisconsin Department of Natural Resources (WI DNR) Hillshade, WI DNR contours, hydric soil indicators, Wisconsin Wetland Inventory, historic aerial photos, and ground level site photos. Based on the delineation report, WI DNR Hillshade, WI DNR 2-foot contours, and aerial and ground level site photos, there are no visible inlets/outlets associated Wetland 1 including under CTH NN. There are no surface or shallow subsurface connections between Wetland 1 and any downstream waters, based on WI DNR Hillshade, recent aerial photography, hydric soil indicators, and Wisconsin Wetland Inventory. Based on aerial photography and ground level site photos, the review area is surrounded by forested upland and residential development. Wetland 1 is located approximately 0.19 miles to the east of Cedar Lake.**

**Wetland 1 does not border, is not neighboring to or contiguous with another water of the US. Wetland 1 is not separated from another water of the US by man-made barriers, dikes or berms. Due to existing and surrounding land use (forested upland and residential development) and proximity to other waters, there are no ecological connections to other wetlands or waters. This aquatic resource does not support a link to interstate or foreign commerce; is not known to be used by interstate or foreign travelers for recreation or other purposes; do not produce fish or shellfish that could be taken and sold in interstate or foreign commerce; and is not known to be used for industrial purposes by industries in interstate commerce. Therefore, the Corps has determined that Wetland 1 is not regulated by the Corps under Section 404 of the Clean Water Act.**

<sup>1</sup> Supporting documentation is presented in Section III.F.

- ☐ If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements.
- ☒ Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce.
  - ☒ Prior to the Jan 2001 Supreme Court decision in “SWANCC,” the review area would have been regulated based solely on the “Migratory Bird Rule” (MBR).
- ☐ Waters do not meet the “Significant Nexus” standard, where such a finding is required for jurisdiction. Explain:
- ☐ Other (explain, if not covered above):

Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply):

- ☐ Non-wetland waters (i.e., rivers, streams):          linear feet          width (ft).
- ☐ Lakes/ponds:          acres.
- ☐ Other non-wetland waters:          acres. List type of aquatic resource:          .
- ☒ Wetlands: 0.24 acres.
