SECTION II: SUMMARY OF FINDINGS

A. RHA SECTION 10 DETERMINATION OF JURISDICTION.

There are no “navigable waters of the U.S.” within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.

There are no “waters of the U.S.” within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

1. Waters of the U.S.: N/A

2. Non-regulated waters/wetlands (check if applicable):¹

- ☒ Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional. Explain: **The review area for this jurisdictional determination is limited to Wetland 1 on the attached figure labeled MVP-2019-01188-MVM Page 2 of 2. This wetland is an isolated depression in an agricultural field with no pipes, swales, or other surface hydrologic connections to other aquatic resources. This was confirmed by reviewing the wetland delineation report submitted by Kjolhaug Environmental Services as well as desktop review of NWI and soil maps and historic and current aerial photography as well as lidar and topographic maps. There is a wetland (Wetland 2) connected to a tributary approximately 400 feet west of Wetland 1; however, topography and lidar support that there is no concentrated or overland flow connection toward Wetland 2. The nearest potential TNW to Wetland 1 is Rice Lake approximately 4500 feet southeast of Wetland 1. The area between Rice Lake and Wetland 1 is heavily developed. Distance from Rice Lake precludes a shallow subsurface or ecological connection. Wetland 1 does not support a link to interstate or foreign commerce because it is not known to be used by the interstate or foreign travelers for recreation or other purposes; Wetland 1 does not produce fish or shellfish that could be taken and sold interstate or foreign commerce; and Wetland 1 is not known to be used for industrial purposes for interstate or foreign commerce. Therefore, Wetland 1 is not a water of the U.S. and is not jurisdictional under the CWA.**

SECTION III: CWA ANALYSIS

A. TNWs AND WETLANDS ADJACENT TO TNWs: N/A

B. CHARACTERISTICS OF TRIBUTARY (THAT IS NOT A TNW) AND ITS ADJACENT WETLANDS (IF ANY): N/A

C. SIGNIFICANT NEXUS DETERMINATION: N/A

¹ Supporting documentation is presented in Section III.F.

D. DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE (CHECK ALL THAT APPLY): N/A

E. ISOLATED [INTERSTATE OR INTRA-STATE] WATERS, INCLUDING ISOLATED WETLANDS, THE USE, DEGRADATION OR DESTRUCTION OF WHICH COULD AFFECT INTERSTATE COMMERCE, INCLUDING ANY SUCH WATERS (CHECK ALL THAT APPLY): N/A

F. NON-JURISDICTIONAL WATERS, INCLUDING WETLANDS (CHECK ALL THAT APPLY):

- ☐ If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements.
- ☒ Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce.
 - ☒ Prior to the Jan 2001 Supreme Court decision in "*SWANCC*," the review area would have been regulated based solely on the "Migratory Bird Rule" (MBR).
- ☐ Waters do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction. Explain:
- ☐ Other (explain, if not covered above):

Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply):

- ☐ Non-wetland waters (i.e., rivers, streams): linear feet width (ft).
- ☐ Lakes/ponds: acres.
- ☐ Other non-wetland waters: acres. List type of aquatic resource: .
- ☒ Wetlands: **Wetland 1 0.09** acres.
