SECTION II: SUMMARY OF FINDINGS

A. RHA SECTION 10 DETERMINATION OF JURISDICTION.

There are no "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.

There are no "waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

1. Waters of the U.S.: N/A

2. Non-regulated waters/wetlands (check if applicable):¹

- ☒ Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional. Explain: This JD is for three aquatic features identified as Wetland 2 (W2) 0.08 acre in size, Wetland 3 (W3) 0.39 acre in size, and Wetland 4 (W4) 0.10 acre in size, which are located within depressions. The isolated wetlands are approximately 300 feet from the nearest jurisdictional water of the United States. There is no natural or man-made discrete and/or confined surface water connection between the wetlands and any other jurisdictional waters, nor is there a shallow subsurface connection to any other jurisdictional water. These wetlands are surrounded by land that is in agricultural crop production and residential developments, precluding an ecological connection to jurisdictional waters. The wetlands are not located in the mapped 100 year floodplain of a jurisdictional water. Therefore, during times of heavy precipitation there is a very low probability that floodwater would reach an elevation necessary for water to flow from other jurisdictional waters into the wetland. Based on a review of the USGS Quadrangle Sheet, the wetlands based on their landscape position do not appear to be part of a recognizable hydrologic system. The wetlands do not cross any state boundary and does not have a use which would associate it with interstate commerce. The wetland do not support a link to interstate or foreign commerce because they are not known to be used by interstate travelers for recreation or other purposes; they do not produce fish or shellfish that could be taken and sold in interstate or foreign commerce; and they are not known to be used for industrial purposes in interstate or foreign commerce. In consideration of the January 2, 2001, United States Supreme Court decision, Solid Waste Agency of Northern Cook County v. United States Army Corps of Engineers, we have determined that W2, W3 and W4 are isolated and non-jurisdictional under Section 404 of the CWA.

SECTION III: CWA ANALYSIS

A. TNWs AND WETLANDS ADJACENT TO TNWs: N/A

¹ Supporting documentation is presented in Section III.F.

B. CHARACTERISTICS OF TRIBUTARY (THAT IS NOT A TNW) AND ITS ADJACENT WETLANDS (IF ANY): N/A

C. SIGNIFICANT NEXUS DETERMINATION: N/A

D. DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE (CHECK ALL THAT APPLY): N/A

E. ISOLATED [INTERSTATE OR INTRA-STATE] WATERS, INCLUDING ISOLATED WETLANDS, THE USE, DEGRADATION OR DESTRUCTION OF WHICH COULD AFFECT INTERSTATE COMMERCE, INCLUDING ANY SUCH WATERS (CHECK ALL THAT APPLY): N/A

F. NON-JURISDICTIONAL WATERS, INCLUDING WETLANDS (CHECK ALL THAT APPLY):

- ☐ If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements.
- ☒ Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce.
 - ☒ Prior to the Jan 2001 Supreme Court decision in "SWANCC," the review area would have been regulated based solely on the "Migratory Bird Rule" (MBR).
- ☐ Waters do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction. Explain:
- ☐ Other (explain, if not covered above):

Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply):

- ☐ Non-wetland waters (i.e., rivers, streams): linear feet width (ft).
- ☐ Lakes/ponds: acres.
- ☐ Other non-wetland waters: acres. List type of aquatic resource: .
- ☒ Wetlands: 0.57 acres.
