Key										
OI - OSIT Investigated site RE - Reshaped site AM - Added Material					GREAT - Great River Environmental Action Team Report N/A - Not Available/Applicable RRF - River Resources Forum TBD - To Be Determined					
NOTES										
Quantities for Pools 3/U4, Lower 4, 5, 9, & 10 Beach Plans will have to be coordinated with the OSIT prior to implementation. All material will be placed with Mechanical equipment. Sites endorsed by GREAT were not given priorities and specific areas were not identified. Action Item 19 in the GREAT I Report identifies a list of recommended beach sites. The existing Beach Plan for Pools 7 & 8 are being updated and are pending final review and approval (as of Apr 2004). Recreation Beach Maintenance Plan for Pool 9 was endorsed at RRF meeting #19 on 2 December 1987 "with a change to the recommendation for site 9-663.8-LW, which leaves it open for further consideration."
