

Contractors with Sub-Contracting Requirements

NOTE: This directory is intended for small business concerns seeking opportunities with DoD prime contractors. The directory is a listing of large business prime contractors who are required to establish subcontracting plans with goals. The report is generated from data contained in the Individual Subcontract Reports (ISRs) submitted in the Electronic Subcontracting Reporting System (eSRS) by contractors and from data contained in the Federal Procurement Data System (FPDS). This list is not all inclusive nor does it mean these contractors are currently seeking sub-contractors to fulfill their requirements. It is for informational purposes only. Many of the Contractors listed have websites and some have contact information on their websites if you are interested in sub-contracting with them.
