

## History

The Eau Galle Flood Control Project, with its dam, lake, recreation areas and channel improvements, was authorized by the Flood Control Act of 1958 as a result of repeated flooding in the Spring Valley area. The 630-acre project was built from 1965-1968 and is located just north of Spring Valley, 50 miles east of the Twin Cities and 40 miles west of Eau Claire, Wis. The Eau Galle Project is operated by the U.S. Army Corps of Engineers, St. Paul District.

The large rolled-earth and rock-filled dam manages a 64-square-mile drainage basin of the Eau Galle River, which flows into the Chippewa River and eventually enters the Mississippi River. The outlet structures include an uncontrolled morning glory inlet that releases water from the surface and a vertical slide gate that releases water from the bottom.

In addition to providing downstream flood protection, the Eau Galle Flood Control Project provides numerous recreational opportunities and valuable habitat for native plants and animals.

## Emergency- Call 911

## Thank You for visiting!

*The Eau Galle Dam and Reservoir is operated by the U.S. Army Corps of Engineers. Our trained staff is here to assist you and we welcome your comments and suggestions.*

Bobber the Water Safety Dog at Highland Ridge Campground

Life Jacket Loaner Stations

**Water Safety**

Need a Life Jacket? Loaner stations are located at the beach and boat landing. Stop in the office or ask a Park Ranger if your size is not available. Several times throughout the summer Park Rangers will have free water safety programs with electric water safety boats and Bobber the Water Safety Dog.

**Environment/Sustainability**

Help us reduce our operating costs and our environmental footprint by turning off lights and unplugging items not in use. Use reusable cookware and reusable water bottles.

**Regulations**

Copies of the "Rules and Regulations" brochure are available at the brochure boxes at each recreation area. Special site rules are posted on bulletin boards. All local, state and federal laws are applicable.
