SECTION II: SUMMARY OF FINDINGS

A. RHA SECTION 10 DETERMINATION OF JURISDICTION.

There are no “navigable waters of the U.S.” within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.

There are no “waters of the U.S.” within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

1. Waters of the U.S.: N/A

2. Non-regulated waters/wetlands (check if applicable):¹

- ☒ Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional.
Explain: **Based on a review of aerial photography, topographic maps, and the wetland delineation report submitted by the requestor, we have determined that Wetland 3 is an isolated wetland depression with boundaries that transition into uplands. As depicted in aerial imagery, the wetland signatures observed within the delineated wetland features do not extend outside of the wetland and is surrounded entirely by uplands. Recent aerial photos depict on-going residential development immediately south, east, and north of Wetland 3. This development appears to have filled drainage features previously existing in the agricultural field to the east of the review area. The review area also has minor changes in elevation, as show in the USGS topo maps.**

Wetland 3 does not abut and is not separated from any waters of the U.S. by natural or man-made features. The nearest (a)(1)-(a)(3) water is an unnamed tributary of Lake Winnebago located approximately 0.37 mile to the southeast of Wetland 3. Historical aerial photography depicted no wet signatures in the immediate areas, demonstrating no surface water or ecological connections are present that link Wetland 3 to this tributary or other aquatic resources.

Wetland 3 does not support a link to interstate foreign commerce; is not known to be used by interstate or foreign travelers for recreation or other purposes; does not produce fish or shellfish that could be taken and sold in interstate or foreign commerce; and is not known to be used for industrial purposes by industries in interstate commerce. Therefore, the Corps has determined Wetland 3 is not regulated by the Corps under Section 404 of the Clean Water Act.

- ☐ If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements.
 - ☒ Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce.
 - ☒ Prior to the Jan 2001 Supreme Court decision in "SWANCC," the review area would have been regulated based solely on the "Migratory Bird Rule" (MBR).
 - ☐ Waters do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction. Explain:
 - ☐ Other (explain, if not covered above):

Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply):
