APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)
NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): January 6, 2021

ORM Number: MVP-2020-01930-EJW

Associated JDs: N/A

Review Area Location¹:

State/Territory: MN City: Blaine County/Parish/Borough: Anoka County

Center Coordinates of Review Area: Latitude 45.198558 Longitude -93.193578

II. FINDINGS

A. Summary: Check all that apply. At least one box from the following list **MUST** be selected. Complete the corresponding sections/tables and summarize data sources.

- ☐ The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A or describe rationale.
- ☐ There are "navigable waters of the United States" within Rivers and Harbors Act jurisdiction within the review area (complete table in section II.B).
- ☐ There are "waters of the United States" within Clean Water Act jurisdiction within the review area (complete appropriate tables in section II.C).
- ☒ There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in section II.D).

B. Rivers and Harbors Act of 1899 Section 10 (§ 10)²

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12))⁴:

Exclusion Name	Exclusion Size	Exclusion ⁵	Rationale for Exclusion Determination
WL7	0.07 acres	(b)(1) Non-adjacent wetland	Based upon information gathered from the 2020 delineation report and a desktop review, the nearest potential a(1)-a(3) water, Sunrise lake, is approximately 0.23 miles south of the review area for this AJD. WL7, WL8, WL9, WLA, WL11, and WL12 have no surface water connection to Sunrise Lake. Coon Creek, another potential a(1)-a(3) water is approximately 2.08 miles north of the review area. The USGS topographic map identified an unnamed perennial tributary west of the review area with a surface connection to Coon Creek, but the delineation report and desktop review determined WL7, WL8, WL9, WLA, WL11, and WL 12 are wholly surrounded by uplands and have no surface water connection to the tributary. WL7, WL8, WL9, WLA, WL11, and WL 12 do not abut a TNW, lake, pond, or impoundment of a jurisdictional water. WL7, WL8, WL9, WLA, WL11, and WL 12 do not meet the definition of an adjacent wetland and are not WOUS under the NWPR rule.
WL8	0.57 acres	(b)(1) Non-adjacent wetland	
WL9	0.18 acres	(b)(1) Non-adjacent wetland	
WLA	0.03 acres	(b)(1) Non-adjacent wetland	
WL11	0.02 acres	(b)(1) Non-adjacent wetland	
WL12	0.03 acres	(b)(1) Non-adjacent wetland
