

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

I. ADMINISTRATIVE INFORMATION

Completion Date of Approved Jurisdictional Determination (AJD): 12/9/2020

ORM Number: MVP-2020-02093-RMH Associated JDs: 2012-03266-SEW

Review Area Location1:

State/Territory: MN City: Lakeville County/Parish/Borough: Dakota County Center Coordinates of Review Area: Latitude 44.704418 Longitude -93.238009

☐ There ar	e "navigable w		ew area). Rationale: N/A or describe ration
within the			s" within Rivers and Harbors Act jurisdiction

¹ Map(s)/Figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where independent upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD form.

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps Districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

U.S. ARMY CORPS OF ENGINEERS REGULATORY PROGRAM APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM) NAVIGABLE WATERS PROTECTION RULE

D. Excluded Waters or Features

Excluded waters ((b)(1) - (b)(12))4:

Excluded water	13 ((b)(1) (b))(1 2)) ·.	
Exclusion Name	Exclusion Size	Exclusion⁵	Rationale for Exclusion Determination
SWP2	0.19 acres	(b)(1) Lake/pond or impoundment that does not contribute surface water flow directly or indirectly to an (a)(1) water and is not inundated by flooding from an (a)(1)-(a)(3) water in a typical year	The review area includes a 0.19 ac area identified as SWP2: Storm Pond. It is located in a depressional area surrounded by a residential community. USGS maps and elevation contours do not indicate a surface water connection to an (a)(1) water. FEMA maps indicate that the area is located in an area of minimal flood hazard, so it is not likely to be inundated by flooding from a paragraph (a)(1)-(3) water in a typical year. The closest tributary shown on the USGS Topographic map is North Creek located approximately 660 feet north of SWP2 which is not an (a)(1) water therefore SWP2 does not contribute surface water flow directly or indirectly to an (a)(1) water and not jurisdictional under the Navigable Waters Protection Rule and Clean Water Act

III. SUPPORTING INFORMATION

- **A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.
 - **_X**_ Information submitted by, or on behalf of, the applicant/consultant: Wetland Delineation Report for Highview Avenue Improvements submitted by Bolton & Menk, Inc. dated October 2, 2020.

This information is sufficient for purposes of this AJD.

Rationale: N/A or describe rationale for insufficiency (including partial insufficiency).

Data sheets prepared by the Corps: Title(s) and/ordate(s).

X Photographs: Aerial and other: Submitted with delineation report and Google Earth

Corps Site visit(s) conducted on: Date(s).

- **X** Previous Jurisdictional Determinations (AJDs or PJDs): 2012-03266-SEW Preliminary Jurisdictional Determination (PJD)JD completed September 27,2012.
- ____ Antecedent Precipitation Tool: <u>provide detailed discussion in Section III.B.</u>
- USDA NRCS Soil Survey: Title(s) and/or date(s).
- X USFWS NWI maps: accessed via ORM in CorpMap on December 8,2020.
- X USGS topographic maps: 1:24K Farmington
