¹ Map(s)/figure(s) are attached to the AJD provided to the requestor.

² If the navigable water is not subject to the ebb and flow of the tide or included on the District's list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

³ A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

D. Excluded Waters or Features

Excluded waters ((b)(1) – (b)(12)): ⁴ The review area for this AJD is limited to the excluded waters described below and shown circled in red on the enclosed figures labeled as 2020-02515-CCK, NWPR AJD on Pages 2-4.				
Exclusion Name	Exclusion Size		Exclusion ⁵	Rationale for Exclusion Determination
W-3B, W-4A, WD-4B, WD-4C, WD-4D, WD-5A, WD-6C, WD-9D, WD-9E, WD-9G, WD-9H, WD-11A, WD-11B	1.01	acre(s)	(b)(5) Ditch that is not an (a)(1) or (a)(2) water, and those portions of a ditch constructed in an (a)(4) water that do not satisfy the conditions of (c)(1).	W-3B, W-4A, WD-4B, WD-4C, WD-4D, WD-5A, WD-6C, WD-9D, WD-9E, WD-9G, WD-9H, WD-11A and WD-11B are roadside ditches that were constructed in uplands and are now linear wetland(s).

⁴ Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

⁵ Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

- B. Typical year assessment(s):** N/A or provide typical year assessment for each relevant data source used to support the conclusions in the AJD.
- C. Additional comments to support AJD:** The review area for this determination is limited to the delineated boundaries of 13 wetland area labeled as: W-3B, W-4A, WD-4B, WD-4C, WD-4D, WD-5A, WD-6C, WD-9D, WD-9E, WD-9G, WD-9H, WD-11A and WD-11B on the attached figures labeled 2020-02515-CCK AJD Attachments, Pages 2-4; and does not include other waters on site. The total area of non-jurisdictional waters within the review area is approximately 1.01 acres of wetlands.

The specified wetlands listed above within the review area meet the definition of “wetlands” under paragraph (c)(16) and are not (a)(4) waters because they do not meet the definition of “adjacent wetlands” under paragraph (c)(1). W-3B, W-4A, WD-4B, WD-4C, WD-4D, WD-5A, WD-6C, WD-9D, WD-9E, WD-9G, WD-9H, WD-11A and WD-11B were constructed in uplands to convey runoff from the adjacent roadway, and are now linear wetlands that meet the definition of “ditch” under paragraph (c)(2). In addition, the ditches are not (a)(1) waters, are not relocated tributaries, are not constructed in a tributary, and are not constructed in an adjacent wetland. All of these wetlands are linear wetlands parallel to an existing roadway and do not extend beyond the delineated proposed construction ROW area(s), based off NWI maps, topo maps and aerial photos.

This was confirmed by reviewing aerial photography, national hydrography data, and topographic data. Based on this review, the assessed ditches are not jurisdictional under the NWPR because they meet the requirements of the exclusion for ditches under paragraph (b)(5).
