APPROVED JURISDICTIONAL DETERMINATION FORM U.S. Army Corps of Engineers

This form should be completed by following the instructions provided in Section IV of the JD Form Instructional Guidebook.

SEC	CTION I: BACKGROUND INFORMATION
A.	REPORT COMPLETION DATE FOR APPROVED JURISDICTIONAL DETERMINATION (JD): 0CT 0 6 2017
В.	ST PAUL, MN DISTRICT OFFICE, FILE NAME, AND NUMBER: MVP-2017-01939-MLV Kadler Avenue
C.	PROJECT LOCATION AND BACKGROUND INFORMATION:
	State:Minnesota County/parish/borough: Wright City: Ostego
	Center coordinates of site (lat/long in degree decimal format): Lat. 45.25391° N, Long93.68461° W.
	Universal Transverse Mercator: Zone 15; X: 446280.78, Y: 5011384.67
	Name of nearest waterbody: Mississippi River
	Name of watershed or Hydrologic Unit Code (HUC): 07010203
	Check if map/diagram of review area and/or potential jurisdictional areas is/are available upon request.
	Check if other sites (e.g., offsite mitigation sites, disposal sites, etc) are associated with this action and are recorded on a different JD form.
D	REVIEW PERFORMED FOR SITE EVALUATION (CHECK ALL THAT APPLY):
ν.	
	Office (Desk) Determination. Date: September 6, 2017
	Field Determination. Date(s):

SECTION II: SUMMARY OF FINDINGS

A. RHA SECTION 10 DETERMINATION OF JURISDICTION.

There are no "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.

There are no"waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

- 1. Waters of the U.S.: N/A
- 2. Non-regulated waters/wetlands (check if applicable):1
 - Explain: This Approved Jurisdictional Determination is only applicable to the aquatic resource labeled "Stormpond" in the review area shown on the enclosed figures labeled MVP-2017-01939-MLV Page 1 of 3 through 3 of 3. The stormpond is delineated as a shallow open water wetland community in the June 2, 2017 Kadler Avenue Improvement Project Wetland Delineation Report prepared by Hakanson Anderson, Inc. The stormpond is present on the National Wetland Inventory as Palustrine Unconsolidated Bottom (PUB) wetland. MVP-2017-01939-MLV Page 3 of 3 depicts the year 2000 construction plans for the stormpond. The Wright County Soil Survey indicates soil in the review area is non-hydric. Soil data and construction plans indicate that the stormpond was originally constructed in uplands to act as a settling basin for the Interstate 94 West Industrial Park. The basis for this jurisdictional determination is the preamble to the 1986 Corps Regulations (33 CFR Parts 320-330), which states that the Corps generally does not consider certain waterbodies to be WoUS, including: Artificial lakes or ponds created by excavating and/or diking dry land to collect and retain water and which are used exclusively for such purposes as stock watering, irrigation, settling basins, or rice growing. Therefore, the stormpond is not a water of the U.S. and is not jurisdictional under the CWA.

SECTION III: CWA ANALYSIS

- A. TNWs AND WETLANDS ADJACENT TO TNWs: N/A
- B. CHARACTERISTICS OF TRIBUTARY (THAT IS NOT A TNW) AND ITS ADJACENT WETLANDS (IF ANY): N/A

¹ Supporting documentation is presented in Section III.F.

- C. SIGNIFICANT NEXUS DETERMINATION: N/A
- D. DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE (CHECK ALL THAT APPLY): $\ensuremath{\mathrm{N/A}}$
- E. ISOLATED [INTERSTATE OR INTRA-STATE] WATERS, INCLUDING ISOLATED WETLANDS, THE USE, DEGRADATION OR DESTRUCTION OF WHICH COULD AFFECT INTERSTATE COMMERCE, INCLUDING ANY SUCH WATERS (CHECK ALL THAT APPLY): N/A

F.		N-JURISDICTIONAL WATERS, INCLUDING WETLANDS (CHECK ALL THAT APPLY): If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements. Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce. Prior to the Jan 2001 Supreme Court decision in "SWANCC," the review area would have been regulated based solely on the "Migratory Bird Rule" (MBR). Waters do not meet the "Significant Nexus" standard, where such a finding is required for jurisdiction. Explain: Other (explain, if not covered above): The stormpond is a settling basin constructed in upland.
	fact judg	vide acreage estimates for non-jurisdictional waters in the review area, where the <u>sole</u> potential basis of jurisdiction is the MBR ors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional genent (check all that apply): Non-wetland waters (i.e., rivers, streams): linear feet width (ft). Lakes/ponds: acres. Other non-wetland waters: acres. List type of aquatic resource: Wetlands: acres.
	a fin	vide acreage estimates for non-jurisdictional waters in the review area that do not meet the "Significant Nexus" standard, where such adding is required for jurisdiction (check all that apply): Non-wetland waters (i.e., rivers, streams): linear feet, width (ft). Lakes/ponds: acres. Other non-wetland waters: acres. List type of aquatic resource: . Wetlands: acres.
SEC A.	and	PORTING DATA. Data reviewed for JD (check all that apply - checked items shall be included in case file and, where checked requested, appropriately reference sources below): Maps, plans, plots or plat submitted by or on behalf of the applicant/consultant: Hakanson-Anderson Data sheets prepared/submitted by or on behalf of the applicant/consultant. Office concurs with data sheets/delineation report. Office does not concur with data sheets/delineation report. Data sheets prepared by the Corps: Corps navigable waters' study: U.S. Geological Survey Hydrologic Atlas: USGS NHD data. USGS 8 and 12 digit HUC maps.
