

**U.S. ARMY CORPS OF ENGINEERS  
REGULATORY PROGRAM  
APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)  
NAVIGABLE WATERS PROTECTION RULE**

**I. ADMINISTRATIVE INFORMATION**

Completion Date of Approved Jurisdictional Determination (AJD): 6/22/2020  
 ORM Number: MVP-2016-04010-NJP  
 Associated JDs: N/A  
 Review Area Location<sup>1</sup>: State/Territory: Minnesota City: Duluth County/Parish/Borough: Saint Louis  
 Center Coordinates of Review Area: Latitude 46.82057 Longitude -92.04674

**II. FINDINGS**

**A. Summary:** Check all that apply. At least one box from the following list MUST be selected. Complete the corresponding sections/tables and summarize data sources.

- The review area is comprised entirely of dry land (i.e., there are no waters or water features, including wetlands, of any kind in the entire review area). Rationale: N/A
- There are “navigable waters of the United States” within Rivers and Harbors Act jurisdiction within the review area (complete table in Section II.B).
- There are “waters of the United States” within Clean Water Act jurisdiction within the review area (complete appropriate tables in Section II.C).
- There are waters or water features excluded from Clean Water Act jurisdiction within the review area (complete table in Section II.D).

**B. Rivers and Harbors Act of 1899 Section 10 (§ 10)<sup>2</sup>**

§ 10 Name	§ 10 Size	§ 10 Criteria	Rationale for § 10 Determination
N/A.	N/A.	N/A.	N/A.

**C. Clean Water Act Section 404**

Territorial Seas and Traditional Navigable Waters ((a)(1) waters): <sup>3</sup>			
(a)(1) Name	(a)(1) Size	(a)(1) Criteria	Rationale for (a)(1) Determination
N/A.	N/A.	N/A.	N/A.

Tributaries ((a)(2) waters):			
(a)(2) Name	(a)(2) Size	(a)(2) Criteria	Rationale for (a)(2) Determination
N/A.	N/A.	N/A.	N/A.

Lakes and ponds, and impoundments of jurisdictional waters ((a)(3) waters):			
(a)(3) Name	(a)(3) Size	(a)(3) Criteria	Rationale for (a)(3) Determination
N/A.	N/A.	N/A.	N/A.

Adjacent wetlands ((a)(4) waters):			
(a)(4) Name	(a)(4) Size	(a)(4) Criteria	Rationale for (a)(4) Determination
N/A.	N/A.	N/A.	N/A.

<sup>1</sup> Map(s)/figure(s) are attached to the AJD provided to the requestor.

<sup>2</sup> If the navigable water is not subject to the ebb and flow of the tide or included on the District’s list of Rivers and Harbors Act Section 10 navigable waters list, do NOT use this document to make the determination. The District must continue to follow the procedure outlined in 33 CFR part 329.14 to make a Rivers and Harbors Act Section 10 navigability determination.

<sup>3</sup> A stand-alone TNW determination is completed independently of a request for an AJD. A stand-alone TNW determination is conducted for a specific segment of river or stream or other type of waterbody, such as a lake, where upstream or downstream limits or lake borders are established. A stand-alone TNW determination should be completed following applicable guidance and should NOT be documented on the AJD Form.

APPROVED JURISDICTIONAL DETERMINATION FORM (INTERIM)  
NAVIGABLE WATERS PROTECTION RULE**

**D. Excluded Waters or Features**

Excluded waters ((b)(1) – (b)(12)): <sup>4</sup>				
Exclusion Name	Exclusion Size		Exclusion <sup>5</sup>	Rationale for Exclusion Determination
Wetland 1	0.17	acre(s)	(b)(1) Non-adjacent wetland.	There is no hydrologic connection to this wetland that provides for downstream flow. Wetland is isolated and does not abut any surface water feature that provides flow to an (a)(1), (2) or (3) water.
Wetland 2 and 37 <sup>th</sup> Avenue Creek	0.05	acre(s)	(b)(1) Water or water feature that is not identified in (a)(1)-(a)(4) and does not meet the other (b)(1) subcategories.	The delineated creek at this location does not appear to be connected to drainage features that would provide flow to an (a)(1), (2) or (3) water. Compared to neighboring intermittent streams, its topographic profile suggests it is likely to have only ephemeral flow, and ground-level photographs provided in the delineation report do not show a well-defined channel. The abutting wetland (Wetland 2) relies on the jurisdictional status of the creek, and is therefore also non-jurisdictional.
Wetland 3 and 37 <sup>th</sup> Avenue Creek	0.04	acre(s)	(b)(1) Water or water feature that is not identified in (a)(1)-(a)(4) and does not meet the other (b)(1) subcategories.	The delineated creek at this location does not appear to be connected to drainage features that would provide flow to an (a)(1), (2) or (3) water. Compared to neighboring intermittent streams, its topographic profile suggests it is likely to have only ephemeral flow, and ground-level photographs provided in the delineation report do not show a well-defined channel. The abutting wetland (Wetland 3) relies on the jurisdictional status of the creek, and is therefore also non-jurisdictional.
Wetland 4	0.04	acre(s)	(b)(1) Non-adjacent wetland.	There is no hydrologic connection to this wetland that provides for downstream flow. Wetland is isolated and does not abut any surface water feature that provides flow to an (a)(1), (2) or (3) water.
Wetland 5	0.10	acre(s)	(b)(1) Non-adjacent wetland.	There is no hydrologic connection to this wetland that provides for downstream flow. Wetland is isolated and does not abut any surface water feature that provides flow to an (a)(1), (2) or (3) water.

**III. SUPPORTING INFORMATION**

**A. Select/enter all resources** that were used to aid in this determination and attach data/maps to this document and/or references/citations in the administrative record, as appropriate.

<sup>4</sup> Some excluded waters, such as (b)(2) and (b)(4), may not be specifically identified on the AJD form unless a requestor specifically asks a Corps district to do so. Corps districts may, in case-by-case instances, choose to identify some or all of these waters within the review area.

<sup>5</sup> Because of the broad nature of the (b)(1) exclusion and in an effort to collect data on specific types of waters that would be covered by the (b)(1) exclusion, four sub-categories of (b)(1) exclusions were administratively created for the purposes of the AJD Form. These four sub-categories are not new exclusions, but are simply administrative distinctions and remain (b)(1) exclusions as defined by the NWPR.

**U.S. ARMY CORPS OF ENGINEERS
