SECTION II: SUMMARY OF FINDINGS
A. RHA SECTION 10 DETERMINATION OF JURISDICTION.
   There are no "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

B. CWA SECTION 404 DETERMINATION OF JURISDICTION.
   There are no "waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.
   1. Waters of the U.S.: N/A
   2. Non-regulated waters/wetlands (check if applicable):¹
      ☒ Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined to be not jurisdictional.
      Explain: The review area contains one wetland (Wetland 5). The wetland delineation report submitted by NES Ecological Services depicts this wetland as a degraded wet meadow. Wetland 5, 0.09 acres in size, was identified as a wetland formed in a closed depression by stormwater runoff. This wetland is not within the 100-year floodplain and is not bordering, contiguous or neighboring another WOUS nor is this aquatic resource separated from another WOUS by man-made dikes, barriers, or berms. The closest tributary is approximately 1886 feet to the southeast.
      Wetland 5 does not support a link to interstate or foreign commerce; is not known to be used by interstate or foreign travelers for recreation or other purposes; does not produce fish or shellfish that could be taken and sold in interstate or foreign commerce; and is not known to be used for industrial purposes by industries in interstate commerce. The surrounding land use consists mostly of pavement and a recreational field. The disturbance of surrounding land uses precludes an ecological connection to a WOUS. Furthermore, the area is hydologically isolated with no surface or shallow subsurface connections to a water of the United States. Therefore, the Corps has determined that Wetland 5 is not regulated by the Corps under Section 404 of the Clean Water Act.

SECTION III: CWA ANALYSIS
A. TNWs AND WETLANDS ADJACENT TO TNWs: N/A

B. CHARACTERISTICS OF TRIBUTARY (THAT IS NOT A TNW) AND ITS ADJACENT WETLANDS (IF ANY): N/A

C. SIGNIFICANT NEXUS DETERMINATION: N/A

¹ Supporting documentation is presented in Section III.F.
D. DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE (CHECK ALL THAT APPLY):  N/A

E. ISOLATED [INTERSTATE OR INTRA-STATE] WATERS, INCLUDING ISOLATED WETLANDS, THE USE, DEGRADATION OR DESTRUCTION OF WHICH COULD AFFECT INTERSTATE COMMERCE, INCLUDING ANY SUCH WATERS (CHECK ALL THAT APPLY):  N/A

F. NON-JURISDICTIONAL WATERS, INCLUDING WETLANDS (CHECK ALL THAT APPLY):
   - [ ] If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements.
   - [ ] Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce.
     - Prior to the Jan 2001 Supreme Court decision in “SWANCC,” the review area would have been regulated based solely on the “Migratory Bird Rule” (MBR).
   - [ ] Waters do not meet the “Significant Nexus” standard, where such a finding is required for jurisdiction. Explain:
     - Other (explain, if not covered above):

Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e., presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply):
   - [ ] Non-wetland waters (i.e., rivers, streams):  linear feet  width (ft).
   - [ ] Lakes/ponds:  acres.
   - [ ] Other non-wetland waters:  acres. List type of aquatic resource:  .
   - [ ] Wetlands: 0.09 acres.
