**F. NON-JURISDICTIONAL WATERS, INCLUDING WETLANDS (CHECK ALL THAT APPLY):**

If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers  
 Other: (explain, if not covered above): Wetlands 2-7 were created as a result of active construction activities. Wetland delineations completed in 2006 and 2013 did not locate wetlands 2-7 on the site. Construction activities throughout the entire site have been documented to occur regularly since 2013. Wetlands 2-7 were established during recent periods of in-activity in areas directly linked to construction activities. In accordance with the preamble to the 1986 Corps Regulations (33 CFR Parts 320-330), the Corps does not generally consider the following waters to be waters of the United States; water filled depressions created in dry land incidental to construction activity.
