**SECTION II: SUMMARY OF FINDINGS**

**A. RHA SECTION 10 DETERMINATION OF JURISDICTION.**

There are **no** "navigable waters of the U.S." within Rivers and Harbors Act (RHA) jurisdiction (as defined by 33 CFR part 329) in the review area.

**B. CWA SECTION 404 DETERMINATION OF JURISDICTION.**

There are **no** "waters of the U.S." within Clean Water Act (CWA) jurisdiction (as defined by 33 CFR part 328) in the review area.

1. **Waters of the U.S.:** N/A
2. **Non-regulated waters/wetlands (check if applicable):<sup>1</sup>**

Potentially jurisdictional waters and/or wetlands were assessed within the review area and determined not to be jurisdictional.  
Explain: **The review area consists only of Wetland 2, Wetland 4, and Wetland 5 as labeled on the attached figure MVP-2018-02584-AIS Page 2 of 5. These wetlands are not bordering, contiguous with, or neighboring another WOUS nor are these aquatic resources separated from another WOUS by man-made dikes, barriers, or berms. The closest tributary is approximately 170 feet to the west of the nearest wetland (Wetland 2). Soils in the area are predominantly non-hydric.**

**There is a ditch to the east of Wetlands 4 and 5, but street level photography confirms that it does not continue to the forested wetland east of the housing development. There is a treeline south of Wetland 4, but there is no ditch feature within the area to connect the wetland to the tributary to the west of the site.**

**The wetlands located within the review area do not support a link to interstate or foreign commerce; are not known to be used by interstate or foreign travelers for recreation or other purposes; do not produce fish or shellfish that could be taken and sold in interstate or foreign commerce; and are not known to be used for industrial purposes by industries in interstate commerce. Furthermore, these wetlands are hydrologically isolated with no surface or shallow subsurface connections to a water of the United States and do not have an ecological interconnection due to existing disturbance. Therefore, the Corps has determined that Wetland 2, Wetland 4, and Wetland 5 are not regulated by the Corps under Section 404 of the Clean Water Act.**

**SECTION III: CWA ANALYSIS**

- A. TNWs AND WETLANDS ADJACENT TO TNWs:** N/A
- B. CHARACTERISTICS OF TRIBUTARY (THAT IS NOT A TNW) AND ITS ADJACENT WETLANDS (IF ANY):** N/A
- C. SIGNIFICANT NEXUS DETERMINATION:** N/A
- D. DETERMINATIONS OF JURISDICTIONAL FINDINGS. THE SUBJECT WATERS/WETLANDS ARE (CHECK ALL THAT APPLY):** N/A
- E. ISOLATED [INTERSTATE OR INTRA-STATE] WATERS, INCLUDING ISOLATED WETLANDS, THE USE, DEGRADATION OR DESTRUCTION OF WHICH COULD AFFECT INTERESTATE COMMERCE, INCLUDING ANY SUCH WATERS (CHECK ALL THAT APPLY):** N/A
- F. NON-JURISDICTIONAL WATERS, INCLUDING WETLANDS (CHECK ALL THAT APPLY):**

If potential wetlands were assessed within the review area, these areas did not meet the criteria in the 1987 Corps of Engineers Wetland Delineation Manual and/or appropriate Regional Supplements

<sup>1</sup> Supporting documentation is presented in Section III.F.

- Review area included isolated waters with no substantial nexus to interstate (or foreign) commerce.
    - Prior to the Jan 2001 Supreme Court decision in “*SWANCC*,” the review area would have been regulated based solely on the “Migratory Bird Rule” (MBR).
  - Waters do not meet the “Significant Nexus” standard, where such a finding is required for jurisdiction. Explain:
  - Other (explain, if not covered above):
- Provide acreage estimates for non-jurisdictional waters in the review area, where the sole potential basis of jurisdiction is the MBR factors (i.e. presence of migratory birds, presence of endangered species, use of water for irrigated agriculture), using best professional judgment (check all that apply):
- Non-wetland waters (i.e. rivers, streams):      linear feet                      width (ft.)
  - Lakes/ponds:      acres
  - Other non-wetland waters:                      acres. List type of aquatic resource:
  - Wetlands: Wetland 2 (0.03 ac.), Wetland 4 (0.48 ac.), Wetland 5 (0.26 ac.)
