SUMMARY OF CHANGES

THE COMPLETION DATE FOR THIS PROJECT HAS BEEN EXTENDED FROM 1 SEP 2004 TO 1 NOV 2004.

SCOPE OF WORK

Paragraph 2 "Summary of Work" subparagraph a. reads as follows:

a. The Contractor shall design, build, and install a new control panel for the portable pump. A new Flygt CAS module shall be included. The control panel shall be installed within the available space inside the Dike A pump station building. The Contractor shall install power and control receptacles on the outside of the building for plug-in of the portable pump as shown. Detailed electrical requirements are provided in the attached sketches and the electrical scope of work. Contractor shall test and operate the pump. The control panel shall be tested and operated.

Paragraph 2 a "Summary of Work" should now read as follows:

a. The Contractor shall design, build, and install a new control panel for the portable pump. A new Flygt CAS module shall be included. The Flygt CAS module is used only to monitor the pump motor winding temperature and the pump leakage sensor. The pumpwell is not considered a hazardous area. Intrinsically safe equipment is not required.

The control panel shall be installed within the available space inside the Dike A pump station building. The Contractor shall install power and control receptacles on the outside of the building for plug-in of the portable pump as shown. Detailed electrical requirements are provided in the attached sketches and the electrical scope of work. Contractor shall test and operate the pump. The control panel shall be tested and operated.
